Beaumont Canopy Features:

- 4470mm length x 1390mm projection
- Front aluminium gutter directs rainwater sideways
- Ready to assemble pre-cut panels
- Rust-resistant aluminium frame
- 100% UV-protected
- Simple to assemble (2 person DIY)

Our Beaumont 4470 is nearly 15ft wide and provides very effective protection from the sun, wind, rain and snow all year round. The pre-drilled profiles and locking assembly system makes assembly nice and easy for DIY installation.

The rust-resistant aluminium frame is coupled with dark grey steel arms ensuring durability and stability. This elegant overdoor canopy includes a front gutter and hidden rubber gasket which helps to direct rain and snow off the sides, keeping your entrance clear and clean.
